

FOR IMMEDIATE RELEASE
January 20, 2009

Princeton, MN.

Crystal Cabinet Works, Inc. is announcing receipt of its certification under the Forest Stewardship Council's (FSC) Standard for Chain of Custody Certification (FSC-STD-40-004). This certification enables the company to sell FSC-certified and labeled cabinetry in birch, cherry, heartwood, hickory, maple, quarter sawn white oak, red oak, rustic cherry, rustic hickory, and rustic red oak. Other species may be available by special request.

By its FSC chain of custody certification, Crystal continues to show that it is truly a leader in the development of green custom cabinetry. Customers can be assured that when ordering FSC certified cabinetry, the wood is sourced responsibly from well-managed forests.

"Crystal Cabinets has a track record as an environmentally responsible company with our Green-Core cabinets and waste reduction commitments, adding FSC certification kicks it up a notch," says Angela Ewald, Environmental Health & Safety Manager with Crystal Cabinet Works, Inc.

The Forest Stewardship Council is an international non-profit organization whose mission is to create a marketplace that promotes well-managed forests by ensuring forestry practices are environmentally responsible, socially equitable, and economically viable. Under the FSC system there are certification requirements for forest management and for any organization involved in all stages of the supply chain of FSC wood processing and distribution.

A family tradition that began in 1947, Crystal Cabinet Works, Inc. is a resilient and dynamic manufacturer of handcrafted cabinetry. For over 60 years, Crystal has taken great care in creating custom cabinetry with a durable, long-lasting finish.

Crystals' certificate number is SGS-COC-005701.
